Get to Know Libby
Wed., Jan. 22nd, 11 a.m.
Learn how to use the free Libby app to download e-books and e-audiobooks from the extensive Chester County Library System collection. Attendees will learn how to browse and search the catalog, place books on hold, adjust account settings, and more. Please come with the Libby app downloaded on your mobile device.

Discover the Wonders of Jenkins Arboretum & Gardens
Tues., Jan. 28th, 11 a.m.
Come hear Tom Smarr, new Executive Director of Jenkins Arboretum & Gardens, share the history of the Arboretum. Beginning with H. Lawrence and Elisabeth Phillipe Jenkins, the property has been home to many passionate and adventurous gardeners. Smarr will also discuss interesting and unusual plants growing in the gardens and future projects for visitors to enjoy.

Is Archaeology Really Like Indiana Jones?
Wed., Feb. 5th, 3 p.m.
Petra, nestled in a mountainous basin of Jordan, is famous for its rock-cut tombs and monuments. It served as a major trading center of the ancient world, and as a backdrop for scenes in Indiana Jones and the Last Crusade. After a series of earthquakes in about 400 AD, Petra lay abandoned; it was not rediscovered until 1812. “Dr. Steve” Phillips, Ph.D, from Penn Museum, will take us behind the scenes on a dig site, where we will learn archaeology techniques and whether or not archaeology is like Indiana Jones.

Clean Energy Options for Home & Community
Wed., Feb. 12th, 10 a.m.
Paula Kline of the Sierra Club will discuss benefits and risks of clean energy options. This talk is a part of Rep. Kristine Howard’s “Sustainability at Home” series.

Excel: Templates for Household Budgeting
Sat., Feb. 15th, 1-4 p.m.
Springhouse teacher, Bob Sullivan, will teach us how to use templates in Excel to create useful budgets for expenses, mortgage payments, and more.

Riding the Rails: 175 Years of Train Travel
Tues., Feb. 18th, 11 a.m.
For over 175 years, railroads have offered the possibility of comfortable, fast, stylish, and safe travel. In this program, we examine each of these aspects of railroading from the early passenger cars that resembled stagecoaches to the more modern futuristic cars. We also look at the dangers travelers faced as well as the innovations that were made to entice travelers to ride aboard trains.

Sixth Annual Friends Film Festival: “Easttown Goes to Washington!”
Thur., Feb. 27th – Sat., Feb. 29th
Join us as we screen four classic election films with star-studded casts. St. Joseph’s history professor and American pop culture expert Dr. Jeffrey Hyson will speak on Saturday about how the films reflect the mood of the electorate through the years. As always, games, prizes, and refreshments including beer from La Cabra, wine, and tasty treats will accompany the films throughout the weekend. Tickets go on sale Feb. 1st.

“Under the Bonnet,” A Play about Lucretia Mott & Frederick Douglass
Sun., March 1st, 2 p.m.
Lucretia Mott was a tenacious woman who abided by the Quaker tenet that all people are equal and spent her life fighting for the rights of women and African Americans. She helped found the Philadelphia Female Anti-Slavery Society, co-wrote the Declaration of Sentiments for the first Women’s Rights Convention in Seneca Falls, and helped found Swarthmore College. Through conversations with her husband, James Mott, and Frederick Douglass, Under the Bonnet gives us a glimpse into Lucretia’s life and incredible accomplishments. Registration is not required. Presented by Beacon Theatre Productions. Registration not required.

Karen Masters Explains the Universe
Wed., March 4th, 7 p.m.
The universe literally encompasses everything we were, are and will be, everything we knew, know and can know. Dr. Karen Masters, Associate Professor of Physics and Astronomy at Haverford College, sheds some light on this subject in 30-Second Universe, her recently published book, where the most significant theories,
principles, and people in astrophysics are described in easily understandable language. Come hear Dr. Masters discuss some of these topics, and stay for star-gazing after the talk (weather permitting).

iPad Tips & Tricks
Thur., March 5th, 2 p.m.
Did you recently get an iPad? Would you like to learn how to use your iPad efficiently and effectively? Attend this class and bring your iPad along with you and learn some fun tips and tricks.

Chinese Medicine (Multiclass Series): A Healing Journey through the Meridians
Tues., March 17th – April 7th, 1 p.m.
Chinese medicine is based on energy (chi) flowing through channels called meridians. These meridians flow through the internal organs in yin/yang organ pairs affecting health on all levels. In this class, you will learn how to optimize, energize, and harmonize the chi flow through the organ pair meridians by using Qigong, yoga, meditation, and affirmations.

2020 Census Information Session
Thur., March 19th, 1 p.m.
Joy Dvornich of the Philadelphia Regional Census Center will be here to give an overview of the census, explain its importance, and dispel myths. Her talk will be followed by a question and answer session.

Longwood Community Read Book Discussion: *Semiosis* by Sue Burke
Wed., April 1st, 7 p.m.
Easttown Library is participating in this year’s Longwood Gardens Community Read program. Attend this book discussion, led by Longwood Gardens library director David Sleasman, and be entered to win a Longwood Gardens pass. Reserve a copy of *Semiosis* today!
